

Detector efficiency with different threshold

Number of events : 10^4

Reconstruction efficiency with different threshold

1N number of events : 10^4

Reconstruction efficiency with different threshold

1N number of events : 10^4

Reconstruction efficiency with different threshold

$2N$ number of events : 10^4

Reconstruction efficiency with different threshold

2N number of events : 10^4

Reconstruction efficiency with different threshold

2N number of events : 10^4

Reconstruction efficiency with different threshold

2N number of events : 10^4

2N (330MeV, 330MeV - ΔE)

2N (330MeV, 330MeV - ΔE)
